Re: California Public Records Act Request (Government Code §7920.000, et seq.)
Request Dated: June 23, 2026
Request Received: June 23, 2026

Dear Ms. Shen:

We are in receipt of your **two** California Public Records Act ("CPRA") Requests. Please be advised that all future requests and/or correspondence are to be directed to public.records@venturausd.org to ensure that all requests are addressed efficiently. Thank you for using this email address.

Under the CPRA, a public agency must provide non-privileged or non-exempt public records in response to a request that reasonably identifies a public record or records. The CPRA does not require a public agency to create documents, compile lists, or summarize records. (See *Haynie v. Superior Court* (2001) 26 Cal. 4th 1061, 1075.) The CPRA also does not require a public agency to make disclosable documents available within a certain timeframe or by a set date established by the requestor. Rather, the CPRA requires a public agency to make an initial determination whether it possesses disclosable public records responsive to the request(s), and set forth the estimated date and time when the records will be made available.

Request #1 of June 23, 2026; Received at 3:25 AM:

"I am assisting with a research project that seeks to understand how schools with **half-day kindergarten** programs meet the nutritional needs of their students.

I am writing to request information on school meal provision by school and grade level for the current academic year (e.g., through the end of May), including the number of breakfasts served and the number of lunches served.

I would also appreciate any available student attendance information by school and grade level for the same time period (e.g., average daily attendance or total attendance figures)."

Request #2 of June 23, 2026; Received at 3:29 AM:

"I am assisting with a research project that seeks to understand how schools with **kindergarten** programs meet the nutritional needs of their students.

I am writing to request information on school meal provision by school and grade level for the current academic year (e.g., through the end of May), including the number of breakfasts served and the number of lunches served.

I would also appreciate any available student attendance information by school and grade level for the same time period (e.g., average daily attendance or total attendance figures)."

Pursuant to Government Code §7922.535, the following is a determination of whether or not each individual request you have made is or is not a disclosable public record:

The District has disclosable public records responsive, at least in part, to your request, regarding, “I am writing to request information on school meal provision by school and grade level for the current academic year (e.g., through the end of May), including the number of breakfasts served and the number of lunches served.” Please see attached. *Please note that Homestead is a K-8 program housed on the Foothill Technology High School property.*

The District has disclosable public records responsive, at least in part, to your request, regarding, “I would also appreciate any available student attendance information by school and grade level for the same time period (e.g., average daily attendance or total attendance figures).” Since the time to construct the record you requested is de minimis, the District will exercise its discretion to waive the fee authorized by Gov’t Code §7922.575. The District anticipates providing you with the disclosable public records responsive to your request on or before **July 20, 2026**.

The District is aware of its obligation under Government Code section 7922.600 to assist you in making more focused and effective requests that reasonably describe an identifiable record or records. To the extent that the District has misinterpreted your request, or you wish to further clarify your request, please contact me in writing. The District will notify you should it need to amend its response.

Sincerely,

Dr. Ahsan Mirza
Assistant Superintendent, Business Services
